#### Feature and Benefits:

- OE (Original Equipment) approved supplier
- Consistent and reliable performance
- Meritor Brand and Meritor approved
- Crimped connection design eliminates leakage risk caused by deformation of spring housing due to bolt connection and end user cannot disassemble it so the injury risks are prevented (green square at photo)

You can start pre-ordering from today, the parts will be available in stock from mid-December.

If you have any questions, please contact your district sales manager for further information.
