

# MERITOR REMANUFACTURED CALIPER PRODUCT UPDATE

## Remanufactured Knorr Calipers

Following a review of our remanufactured caliper range, we have taken the decision to rationalise our build specifications and reduce our stocked range. As a result, effective from 1st December 2015, all remanufactured Knorr calipers in the MXCO range of numbers will be superseded to an MXC equivalent reference.

In effect, this only changes the part number that you should order as MXCO and MXC references are technically identical.

You current pricing will remain unchanged, meaning you will be invoiced the same price for MXCO and MXC references. Core surcharges and grouping also remain the same.

Although the change is effective 1st December 2015, you may see mixed deliveries of product in the following few weeks as our stock is changed over. The part numbers are 100% interchangeable. The affected references are as follows:

CURRENT SALES REFERENCE	DESCRIPTION	REPLACED BY
<b>MXC09102001</b>	REMAN CALIPER - SB-SN6 AXIAL RATIONALISED - MCC201	<b>MXC9102001</b>
